New Source Review newspaper advertisements for construction permit applications, June 10, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 8, June 9, or June 10, 2004. Public notices are generally published every two weeks. The previous publication of public notices was May 25 – 27, 2004.

## PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

They seek to obtain an air contaminant permit (Division identification number: 03-0006-01/57311) for modification of a Rock Crushing and Screening Operation located at 8598 Hwy. 192, Holladay, TN 38341. This existing operation consists of crushed rock, impact crushers, screens, conveyors, storage bins, and associated equipment used to produce quarried rock. Wet suppression is used for pollution control. The requested modification is for the replacement of obsolete crushed rock processing equipment listed above with newer equipment of the same description. There would be physical construction. Regulated air contaminants emitted by this source would decrease due to decreased operating hours. Mr. R. Benjamin is the assigned Division person.

For the Benton County "Camden Chronicle"--published once on or before Thursday, June 10, 2004.

The applicant is <u>Franklin Industrial Minerals</u> with a mailing address of <u>612 10<sup>th</sup> Avenue North, Nashville, TN 37203</u>. They seek to obtain an air contaminant permit (Division identification number: <u>18-0007-01/57335</u>) for modification of a <u>Rock Crushing and Sizing Operation</u> located at <u>10583 Highway 70 East, Crab Orchard, TN 37723</u>. This existing operation consists of crushers, screens, conveyors, crushed aggregate stockpiles, and associated equipment used to produce crushed limestone aggregate. Baghouses and wet suppression are used for control of particulates (TSP). The requested modification is to increase the production rate of the primary crusher (source –01) and the aggregate plant (source –02) from 350 tons per hour to 500 tons per hour. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before June 10, 2004.

Air Pollution Control jun1004-web.doc 1

The applicant is <u>U.S. Silica Company</u> with a mailing address of <u>P.O. Box 187, Berkeley Springs, WV 25411</u>. They seek to obtain an air contaminant permit (Division identification number: <u>57-0207-02/57313</u>) for modification of an <u>Industrial Sand Operation</u> located at <u>105 Burkett Switch Road, Jackson, TN 38301</u>. This existing operation consists of two pebble mills, air classifiers, storage bins, and associated equipment used to produce industrial sand. Wet suppression and a baghouse are used for pollution control. The requested modification is to increase the rate of production for each mill system. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Smith is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, June 10, 2004.

They seek to obtain an air contaminant permit (Division identification number: 61-0030-01/57314) for modification of a Rock Crushing Operation located at 1710 Highway 58 S., Georgetown, TN 37336. This operation consists of existing permitted conveyors, screens, crushers, crushed rock stockpiles, and associated equipment used to make crushed rock. Wet suppression is used for pollution control. The requested modification is to replace all of the existing equipment with new equipment. There would be physical construction. Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.

For the McMinn County "Daily Post-Athenian"--published once on or before Thursday, June 10, 2004.

The applicant is <u>Monterey Limestone</u> with a mailing address of <u>P.O. Box 331, Livingston, TN 38570</u>. They seek to obtain an air contaminant permit (Division identification number: <u>71-0163-01/57285</u>) to modify a <u>Rock Crushing and Sizing Operation</u> located on <u>Highway 84 North, Monterey, TN 38574</u>. This existing operation consists of crushers, screens, conveyors, limestone aggregate stockpiles, and associated equipment used to produce crushed limestone rock. Wet suppression is used to control particulate (TSP) emissions. The requested modification is the addition of a cone crusher. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. W. Medley is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen"--published once on or before June 10, 2004.

The applicant is <u>Rinker Materials South Central</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 2389</u>, <u>Knoxville, TN 37901</u>. They seek to obtain an air contaminant permit (Division identification number: <u>74-0035-01/57359</u>) for modification of a <u>Rock Crushing Operation</u> located at <u>3025 Joe Dowlen Road</u>, <u>Pleasant View</u>, <u>TN 37146</u>. This operation consists of existing permitted conveyors, screens, crushers, crushed rock stockpiles, and associated equipment used to make crushed rock. Wet suppression is used for pollution control. The requested modification is to replace a crusher and conveyor. There would be physical construction. Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.

For the "Robertson County Times"--published once on or before Thursday, June 10, 2004.
